

# Our Services

Capital Transport is a national, full service, transport and logistics company that provides flexible, client focused transport and 3PL services complemented by industry leading technology. Our national fleet includes a full complement of vehicles from motorcycles, for CBD courier services, to semi-trailers and specialised vehicles.

Capital Transport offers a technological solution, which is not only unique to our industry, but one that offers a previously unimaginable, paperless B2B solution in transport. Our supply chain solutions are individually scalable and offer a live and interactive web-interface that allows for customer control at a click. Our systems include a suite of functionality and reporting capabilities, which ensures every driver or transaction is monitored in real-time. Combine this with one of the most reliable Courier and Taxi Truck services in Australia and the result is better control, improved efficiencies and an overall reduction in distribution expenditure for your business.

## Our Product Range Includes:

- Express on-demand couriers
- Express taxi trucks
- Contract transport
- Permanent hire
- Warehousing and distribution
- Paperless B2B solution

## Our Benefits Include:

- Better control, improved efficiencies
- Live and interactive web-interface
- Customer control at a click
- Individually scalable solutions
- Reduction in distribution expenditure

Our clients enjoy the peace of mind and convenience of having one supplier that provides a consistent, reliable and accountable service. Our drivers and staff are proficient and professional, and our deliveries are completed in a seamless manner. With the click of a button your company will be provided accurate, online information in real-time. Our cutting edge technology and tracking facilities pinpoint the location, and the status of your consignment keeping you informed every step of the way.

# On Demand Services

Our clients expect consistency in service delivery and our ability to meet this expectation is no accident. Underpinning our superior and reliable delivery performance is a commitment by Capital Transport to provide a range of transport services and delivery options, a seamless delivery process, as well as transparency and flexibility. Our service is supported by industry leading tracking technology which provides timely and accurate information directly to our clients.
